

NOTICE RETAIL DRUGGISTS NO MORE VAPORUB DIRECT BUY IT FROM YOUR JOBBER

Effective Immediately. No More Direct Shipments Will Be Made Retailers. All Shipments Now Go to Jobbers for Redistribution.

When the influenza epidemic struck the country and wiped out our warehouse and jobbers' stocks almost overnight, we were faced with the problem of distributing—to the stricken districts—in the quickest possible manner—our daily output of Vapo-Rub. We solved this by offering to ship direct to the retailers in these influenza districts, by parcel post prepaid, quantities of not more than three dozen Vapo-Rub in any one shipment, and by shipping what was left from our daily production to our jobbers by express instead of freight.

This was costly, but it solved the problem for the time being. Now, however, we find that these small shipments are constantly increasing—

we have received as many as 1,206 in a single mail. It is becoming impossible for us to fill these promptly, and instead of distributing our goods more quickly, they are really slowing up the process.

We believe that we can serve you better now by reverting to our former policy of shipping exclusively through the jobber, and effective immediately, no more drop shipments will be made.

While we have put on a night shift and have, thereby, about doubled our production, we are still unable to fill our back orders and won't be able to give each jobber all the Vapo-Rub he wants. Hence, it will be necessary for the jobbers to continue distributing Vapo-Rub in small lots only. But we will be able to furnish each jobber at least twice the quantity of Vapo-Rub that he purchased for the corresponding month last year, so there should not be any difficulty in your getting your pro rata share.

We feel that the public appreciates the service that the retail and wholesale drug trade have rendered the country in this time of stress. We wish to express to both branches of the trade our thanks for the kind cooperation extended us in our effort to meet this emergency.

Too Late to Get in the Big Show, but Ready.

Private Haywood Van Wageningen, Co. B, Third A. M. G. Battalion, writes his father, George Van Wageningen of High Falls, as follows:

Nov. 24, 1918.
Dear Dad—It is the Sunday before Thanksgiving and also Father's day in France, so this is one day you will receive a letter. Since the 11th we have been down the way back to Germany by the good old American boys we have the privilege to write news that we were not allowed to write when we first arrived over here. August and I had to leave the front line, the ship on which we sailed, we had a dizzy trip on the brine for twelve days. At the end we landed at a seaport in France called Brest, where we camped for about one week, and we moved on to England and had a fine ride on the Labor Day railroad for four days and three nights, and I enjoyed the scenery very much. After train ride we had a small like to New York and that was all, when we moved to England, the place where we are now located. All these places are very small villages of France, and I imagine it is the homes of the poorer class of people. We didn't see any service at the front, but I guess we just missed it by a week or ten days. Although we were not at the front we were ready anytime we were called and I know all the boys would have been glad to go up there and do their bit. Now I guess I have written all the news that is worth writing, so I will close.

I repeat that I cannot be with you for the Christmas dinner, but let us hope it will only be a matter of time before I arrive back. Good bye and good luck. From your son,
HAYWOOD.

LENNONS HELD FOR HALF MILLION MEN THE GRAND JURY NOW OUT OF ARMY

This morning in police court both Patrick Lennon, and his nephew, Patrick Lennon, a sailor in the U. S. Both are charged with assault in the second degree committed upon Mrs. Weinstein an account of which will be found elsewhere.

TO MAKE FOODS PUBLIC UTILITIES

By Telegram to The Freeman
New York, Dec. 27.—Governor-elect Alfred E. Smith has given assurance that he will support the effort to have such necessary foodstuffs as bread, milk, eggs, butter, vegetables and meat declared "public utilities" by the next state legislature, Laura A. Cagle, deputy commissioner of markets for New York, announced here today.

This means, she declared, that Governor-elect Smith will eventually come out for either municipal or state ownership or control of the transportation and distribution of such products to the end that prices will be reduced.

Miss Cagle's announcement was made to Chief Magistrate McLeod before whom Assistant District Attorney John T. Dooling is now conducting a John Doe inquiry into the milk situation of New York.

Commercial Wheat Holdings.

By Telegram to The Freeman
Washington, Dec. 27.—The commercial stocks of wheat reported in a survey made December 1 by the department of agriculture, amounted to 219,434,832 bushels. It was announced today. These holdings, by 10,669 firms—elevators, warehouses, grain mills and wholesale dealers—were more than twice as large as the stocks held by the same firms a year earlier, the actual percentage being 106.1 per cent of the 1917 stocks. The figures refer to stocks actually reported and do not represent the commercial stocks of the country, nor do they include stocks on farms.

St. James's Musical Service.

A very unique musical service will be held in the St. James Methodist Church Sunday night. Three choirs, three organists, and a great chorus will take part. Maunders' famous Christmas cantata "Bethlehem" will be rendered by the choir of the First Dutch Reformed and the St. James Churches. There will be solos, duets, trios and choruses. The musical work will be divided into three parts. Part I, "The Shepherds' Gifts," Part II, "The Kings' Gifts," Part III, "Our Gifts." There will be a union of the three congregations at this unique service on Sunday night.

Shipbuilders Threaten Strike.

By Telegram to The Freeman
Quincy, Mass., Dec. 27.—More than four thousand mechanics employed at the Victory plant of the Bethlehem Steel Corporation at Quantum may strike as a result of the alleged lock-out of certain union members. At a mass meeting of the boatbuilders it was voted to support those men who are said to have been denied work because they failed to report at 7 a. m. on opening time at the big ship-building plant.

Bolshevik Agitate Offer Peace.

By Telegram to The Freeman
London, Dec. 27.—The Bolshevik regime in Russia has again approached the Allies regarding terms for peace. It was announced by a news agency here today. This new move has been made since Christmas, it was said. It was stated that no response is expected as the Allies will not recognize the Bolsheviks nor even having a representative in Russia.

Keep Troubles to Yourself.

Life for the vast majority of us is none too carefree. This trouble or that disappointment, makes our world very cheerless at times; but dwelling upon our problems, elaborating upon our difficulties, or longing to share these unpleasant realities with others, will not aid us one iota. We each, individually, must stand on our own ground, and if we are wise, refuse to be influenced by any unproductive moods.

FINANCIAL AND COMMERCIAL

By Telegram to The Freeman

New York, Dec. 27.—There was a demand for many stocks at the opening today with nearly all the important issues showing gains in the initial transactions, but at the end of the first quarter of an hour there was evidence of renewed pressure in some of the leading issues which more than wiped out these gains. Steel Common, after moving up from 93 1/4 to 93 3/4, reacted to 93. American Car & Foundry was strong, moving up 1/2 to 90 3/4. The copper issues made fractional gains, Inspiration moving up 1/2 to 44 1/2, while American Smelting advanced one point to 76 1/2. B. R. T. was in demand, advancing 1 1/2 points to 27 1/2. Southern Pacific rose 1 1/2 points to 39 1/2. The market showed a large improvement during the forenoon. B. R. T. moved up nearly two points to 28 1/2 while the Interborough issues made fractional gains. Steel Common rose to 93 3/4 and Baldwin Locomotive moved up to 73 1/2. The greatest gain was recorded in United Fruit, which rose seven points to 163 1/2. Southern Pacific was the strongest of the railroad issues moving up to 39 1/2, a gain of 1 1/2, while Reading rallied over one point to 86 1/2. The Liberty 4 1/2's were again in supply, dropping to 94 1/4. Other bonds were irregular.

In the afternoon Steel Common reacted from 94 to 93 1/2 and Baldwin Locomotive from 74 1/2 to 73 1/2. Severe weakness again developed in the cotton issues. B. R. T. dropping from 28 1/2 to 25 1/2, and Interborough Cons. Preferred to 18 1/2. Consolidated Gas reacted from 97 1/2 to 95 1/2. Mexican Petroleum was one point lower at 198 1/2, while United Fruit dropped to 159 1/2. Pierce-Arrow reacted over one point to 42 1/2. United States Rubber was strong, moving up to 78 1/2.

Protecting Turkeys From Coyotes.

In certain parts of the West flocks of domestic turkeys on frontier farms are protected from attacks by coyotes by tying small bells to the necks of the gibblers. The tink of these bells is sufficient, it is said, to keep the animals away, while not infrequently unexpected flocks which have wandered far from home are annihilated by the hunters—Popular Mechanics Magazine.

NEW TO THE WORLD WEALTH

Millions of Dollars' Worth of Copper, Lead and Other Products Deposited Beneath Streets.

Under the streets of New York city are deposits of copper, lead and other valuable products far exceeding in quantity and value any mine yet discovered throughout the world. Engineers and scientists estimate the amount of copper to be found in the boroughs of Manhattan and Bronx at 20,000,000 pounds, valued approximately at \$7,500,000. The lead is estimated at 40,000,000 pounds, worth something like \$4,500,000.

This discovery was announced at the Electrical Exposition at Grand Central Palace, where the Consolidated Telephone and Electric Railway company had a large exhibit showing a full size cross section of one of the city's principal thoroughfares. In this cross-section (cross section of earth and rock) the veins of copper and lead could be easily traced. Of course, the veins of copper and the veins carrying the electric current for lighting, heating power and communication to every block and corner of the great metropolis while the lead is used to protect the cables. The cross section at the Electrical Exposition was 20 feet long by 25 feet deep. It showed the location of the above surface conduits and cables, electric wires, gas pipes, water pipes, with their proper water draining system and other interesting things that lay beneath the streets of New York city. The exhibit was a most interesting and educational one.

PRINCESS IS CZAR'S MANAGER

Eudoxia, Eldest Daughter of Ruler of Bulgaria, Said to Be Cleverest of Family.

Princess Eudoxia, the eldest daughter of the czar of Bulgaria, is said to be the cleverest member of Ferdinand's family. She manages the Sofia palace, receives ministers and envoys and apologizes to them for Ferdinand's mysterious absence; runs Ferdinand's farm at Vitosha when Ferdinand is not hiding there; directs his business speculations and his enormous private wealth, and, in particular, runs his big land-development scheme around Chaslava, near the Turkish frontier.

Eudoxia is black-eyed, lively and pretty, with an ambition, Sofia declares, to be married quickly, and cracks add that Ferdinand chose the German side instead of the allies because Germany has vast supplies of bridegrooms of royal, princely and ducal blood. In Sofia, Eudoxia is known as "Bulgarian Diana"—the Maid of the Balkans. In summer she makes solitary tours in the hills, puts up in shepherd's huts, and checks Ferdinand, who is a tin of man with a sharp distrust of his subjects, and a faith, inherited from a thousand years of Bourbon ancestors, that women, like men, of royal blood are three times sacred.

Trying to Do Their Bit.

While nearly every woman is trying to do her bit in some way, there are at least a hundred thousand other women who believe they can save the country by breaking into the money market as New York editor. That is why every woman-lecturer who is crowded

with applicants and why motion-picture managers are busy men these days of frantic freedom. It requires much patience, nerve and sometimes a set of burglar's tools to enable a woman to access to reach a manager, however, but an overworked woman of rather ripe years rushed her way past the array of office boys and clerks into the sanctum of the man who hires and fires. "I wish to become a movie actress," she announced. "I feel that I have within me the makings of a great impersonator of the silent drama." "Have you ever had any experience, madam?" asked the manager. "Yes, if you please," stammered the applicant. "No, I haven't any experience. My face is my fortune." "Well, you need not worry about the income tax, if that's the case," granted the manager. "Don't slam the door."

Fearless Japanese Official.

Of all the eccentric characters in Japan, one of the most famous and distinguished is probably Viscount Ino, Isajiro Tajiri, president of the Imperial House of Audit. He flatters nobody, not even himself, was a correspondent, and is feared by all who are not sincere. The late Prince Katsura was once scolded by him, and not long ago Baron Shibusawa waxed hot in anger at a public meeting as he came to refute the charges of commercial corruption which Viscount Tajiri had made against Japan's business world at large. He is outspoken when he thinks the occasion demands outspokenness. Fearlessness of public opinion or ridicule is a characteristic emphasized in the very single and unique Japanese life that he is leading. His soul is of the simplest nature. He daily returns to the office a better man.

With applicants and some pickled plums, and during the past 40 years he has ever stuck to his Spartan lunch.

Fish at Reasonable Price.
The Canadian government's venture to supply the public with fish at a reasonable price has proved a success. A refrigerator service from Nova Scotia to Ontario was provided, and the government's scheme was advertised. In one week there were three cars carrying approximately 80,000 pounds of fish, as against normal shipments of 5,000 pounds. The varieties sold under the government's plan, which provides that the buyer shall take the whole fish, are haddock and market cod. These were the only ones available in quantities to justify the experiment. Haddock is well known; market cod is practically a newcomer.

Finding Broken Wire.

It is a difficult matter to locate a broken wire in an ignition cable, unless one knows how. Here is how: Draw each individual wire out somewhere along the cable. Hold a compass within a half-inch of the wire. If the current is flowing through the wire, the compass will be deflected from its normal position in one way or the other. A broken wire will have no effect on the instrument, which thereby acts as a detective.

Well Fortified.

"Marion would not expect to get anything from her husband by shedding 'tears' now?"
"Because he has too much dry hair."

SECRET OF FRENCH CULTURE
Vibrating Balance Between Head and Heart at Top Speed, Is Deduction of Magazine Writer.

Intensely alive, is the chief impression one has of the French nature, all the clear created forms of French life arise, forms recognized as forms with definite vitality attached. Controlled expression is the result of action and reaction. Controlled expression is the essence of culture, because it alone makes a sufficiently clear appeal in a world which is itself the result of the insupportable interplay of complementary or dual laws and forces.

French culture is near to the real heart of things, because it has a sort of quick sanity that never loses its way, even when it does, very rapidly recovers the middle of the road.

CHRISTMAS AT CITY HOME.

True Yuletide Spirit Shown By Remembrances of Citizens.

Christmas, 1918, was an unusually happy time at the City Home, judging from the many kind remembrances received and the delicious dinner served by Superintendent Edmondson. The home was decorated with Christmas bells and red and green festoons. Last Sunday the women received from Mrs. H. R. Brigham's Sunday school class of the Albany Avenue Baptist Church, fruit and candy. Mrs. Spielman's class of the Trinity M. E. Church took each of the women a box containing cake, candy and fruit. The Rev. Mr. Myer and Miss Short together with some of the young ladies of the Free Methodist Church, visited the home on Sunday and held a church service, giving each of the inmates fruit and candy and the women, each a little gift. On Monday, Miss Rice and friends presented each of the women with candy and cake. The Women Auxiliary of the Holy Cross Church visited the home, taking a little Christmas tree, together with gifts of fruit and candy, for each of the four members at the home who are members of the Holy Cross Church. Gifts of fruit and candy were received by the women from the Southampton Club, and Mrs. John Frommer sent 22 records for the phonograph. As has been their custom for some time, the W. F. T. U. remembered each inmate with a little bag containing cake, fruit and candy. Mrs. Sam Bernstein, Sr., sent to each woman a pretty handkerchief in a Christmas box. On Christmas Day, Superintendent Edmondson provided a fine dinner for all, consisting of chicken, mashed potatoes, creamed onions, pot pie and pumpkin pie. To further add to the festivity of the occasion, Mr. Edmondson gave each man a handkerchief and each woman a apron and a handkerchief. In addition to all of these good things the people at the home were generously remembered by their friends who sent tokens to the men and little gifts to the women. Next week, before New Year's, Miss Edmondson will have the annual entertainment and Christmas tree for the women. It is indeed good to think that on this, the most wonderful Christmas, since the first one, our poor and needy ones have been so generously remembered.

Baptist Sunday School Entertainment

The Christmas entertainment of the Wurts Street Baptist Sunday School will be held in the chapel at 8 o'clock this evening to which the public is invited. Santa Claus has sent word to the superintendent that he will surely be there and an electrical lighted Christmas tree well loaded will be one of the features of the evening. A fine program has been arranged which will include several local musicians, as well as Miss Natalie Jacobs of New York, who will sing several selections. A fire will be kept burning.

AN EXPERT.

A government press censor was talking about the German press censorship.

"We found on some prisoners recently," he said, "the German censorship's latest prohibition, prominent among these was an order to the press not to mention under any circumstances the growing use in Germany of dog flesh for food."

"That prohibition reminds me of a story—a story that may contain a lot of truth."

"A German prisoner, the story runs, was rebuked by a sergeant for the sloppy way he was feeding and looking after some Red Cross dogs."

"I guess you think you know a lot about dogs," the sergeant sneered.

"Yes, sir, that's right," said the prisoner, "for let me tell you, sir, I've been cook in a Berlin restaurant for the last two years."—Washington Star.

What's the Use?

Professor—I went to the railroad of five today and got that umbrella I left on the train last week.

His Wife—That's good. Where is it now?

Professor—Oh? By June 1—really, my dear, I'm afraid I left it on the train.

GOT TOO FAT.

Wife—When we were married you said I'd have nothing to do but sit around and look pretty.

Hubby—Well, the trouble is that from sitting about so much you don't look pretty any longer.

A Rarity.

I've seen a lot of funny sights, but none so rare as this. A dead man upon the screen. Where he's laid to rest.

Uses of Perversely.

Abstractly, I disapprove of fishing; hunting I think barbarous; the who constantly trends on a worm is no friend of mine; and yet I fish. I do not merely carry rod and reel; I use them. I suppose it is like smoking; that seems to me a free-minded habit; and yet I smoke. Working, too, seems sometimes as foolish, and yet I work. Some pessimists have concluded themselves that living is a waste of time; and yet, so far as I have observed, they continue to live. Sweet are the uses of perversity.

Chinese Wedding Presents.

In social circles of the celestial empire the family of the bridegroom makes presents to the family of the bride of various articles a few days before the day fixed for the marriage. The presents generally consist of food, the leg and foot of a pig, the leg of a goat, eight small cakes of bread, eight torches, three pairs of large red candles, a quantity of vermilion, and several bunches of firecrackers.

Got Ring Lost Thirty Years Ago.

A boy was playing along the rocky coast of North Wales, a short time ago, and trying to lift many of the loose rocks, saw a sparkling object lying underneath one of them. On being fished up this proved to be a valuable gold ring. When inquiries were made, it was found that it belonged to an old resident of the district, who had lost it in the sea over thirty years ago, when bathing.

Great Wrong Done Willie.

There ought to be a severe penalty for an alarm clock striking a blue note. One of these things got Willie out of bed an hour too early under the suggestion that he was an hour late, and landed him at the office like a runaway horse, before the janitors had finished their morning's work.—Seattle Post-Intelligencer.

Really Fine Eulogy.

Here is a eulogy of a dead man which Ibn Khalikan declares the Commander of the Faithful, as the Caliph of Baghdad was known, pronounced incomparable: "Now let misfortune do its worst, and time inflict its evils. There is no excuse for eyes which have not shed their tears."

THE REASON.

It seemed that when Rastus and Sam died they took different routes; so when the latter got to heaven he called Rastus on the phone.

"Rastus," he said, "how go' like it down there?"

"Oh, boy! Dis here am some place," replied Rastus. "All we has ter do is to wear a red suit wid horns, an' they now an' den shovel some coal on de fire. We don't work no more dan two hours out ob de twenty-four down here. Big tell me, Sam, how is it with you up yonder?"

USE OF BUCKWHEAT COAL WILL HELP RELIEVE ANTHRACITE SHORTAGE

United States Fuel Administration Urges Liberal Use of Smaller Size of Hard Coal, Which-Cost Consumer Less.

As a most effective means of supplementing the supply of regular domestic sizes of anthracite coal, the United States Fuel Administration recommends the use of the No. 1 size of Buckwheat anthracite. Buckwheat size is fairly plentiful, while regular sizes are scarce, and the ordinary furnace will burn effectively if fired with 25 per cent. Buckwheat and 75 per cent. larger sized.

Buckwheat coal may also be used with wood.

Here are some rules worked out by heating experts for the use of Buckwheat coal:

If there is a good bed of fire, put large coal on first and then add a top dressing of No. 1 Buckwheat.

If the fire is low, put on a small amount of Buckwheat first and after a good bed of fire is formed, add the large coal and then the top dressing of Buckwheat.

The ordinary house heater does not have sufficient draft to produce satisfactory results when Buckwheat is used with either Chestnut or Pea Coal. The exact proportion of the small and large coal should be determined by experience and weather conditions.

Keep the Buckwheat in a separate bin.

The above suggestions apply to steam, hot water, vapor and warm air heating plants and stoves.
